WHO WE ARE

SwissPine Tech, established in February 2024, is the culmination of a profound commitment to fostering connections across continents. **The company's founder, with nearly two decades of experience in both the government and private sectors, brought with him a deep-seated love for his country, the Philippines, and an equal passion for Switzerland, where he has lived and experienced the vibrant culture and progressive business environment.** Inspired by his unique personal journey and motivated by a desire to bridge the gap between these two worlds he cherishes, he envisioned a venture that would empower Swiss startups and SMEs.

SwissPine Tech (a.k.a Switzerland-Philippine-Technologies) leverages cost-effective, high-quality talent from the Philippines to provide tailored IT, AI, Blockchain, and BPO services. This strategic approach not only ensures Swiss businesses thrive in the digital age but also creates valuable opportunities for professionals in the Philippines, embodying the founder's vision of mutual growth and cooperation.
